

HYP 2022 PRAGUE

14th International Conference on Hypernuclear and Strange Particle Physics

June 27–July 1, 2022
Prague, Czech Republic

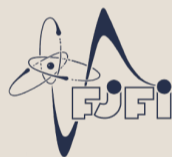

Conference Topics

- Production, structure and decay of hypernuclei
- Multistrange systems
- Strange mesons in nuclei
- Strange exotic atoms
- Heavy flavor systems
- Strangeness and hypernuclei in elementary reactions and nuclear collisions
- Strangeness in astrophysics and in extreme forms of matter
- Interactions of mesons and baryons with strangeness
- Strangeness in hadron structure
- Future experiments and facilities

Hosts

Nuclear Physics Institute
Czech Academy of Sciences

Faculty of Nuclear Sciences and Physical Engineering
Czech Technical University in Prague

Local Organizing Committee

J. Bielčíková, P. Bydžovský, A. Cieplý, D. Gazda, F. Křížek, J. Mareš, D. Skoupil, P. Tlustý (NPI)

J. Bielčík, J. Óbertová, B. Tomášik (FNSPE)

International Advisory Committee

E. Botta (Torino), T. Bressani (Torino), H. Caines (Yale), C. Curceanu (Frascati), L. Fabbietti (Munich), A. Feliciello (Torino), A. Gal (Jerusalem), B. F. Gibson (Los Alamos), J. Haidenbauer (Juelich), E. Hiyama (Tohoku), T. Kishimoto (Osaka), H. Lenske (Giessen), Yu-Gang Ma (Shanghai), J. Mareš (Řež), D. J. Millener (BNL), T. Motoba (Osaka), T. Nagae (Kyoto), S. N. Nakamura (Tohoku), H. Nouri (RCNP), M. Oka (Tokyo), E. Oset (Valencia), A. Parreño (Barcelona), J. Pochodzalla (Mainz), À. Ramos (Barcelona), R. Schumacher (CMU), H. Tamura (Tohoku), L. Tang (Hampton), I. Vidaña (Catania), T. Yamazaki (Tokyo), Shi-Lin Zhu (Beijing), Bing-Song Zou (Beijing)
